github.com/pfiterman
pfiterman-portfolio.netlify.app

Results-driven Full-Stack Developer with over a decade of experience delivering robust web solutions across ERP, logistics, and public safety sectors. Skilled in developing responsive and scalable applications using React.js, Next.js, Django, and PostgreSQL. Adept at translating complex requirements into efficient, maintainable code — from building front-end interfaces to deploying full-stack systems with real-time data and geolocation features. Recognized for a disciplined and deadline-oriented work ethic, strong problem-solving abilities, and a collaborative mindset. Committed to continuous improvement and consistently contributing to high-impact, user-focused software solutions.

SKILLS

Front-End	HTML5, CSS3, JavaScript, C#, Bootstrap, Vite, Tailwind, React.js, Redux, TanStack Query, Next.js
Back-End	Python, Django, Node.js, PHP, Supabase, Firebase, MongoDB, SQL, PostgreSQL, SQL Server
Tools	GitHub, Git, Visual Studio, Visual Studio Code, VirtualBox, Docker, ClickUp, Figma
Strengths	Supportive, Resilient, Adaptable, Problem-Solver, Highly Organized, Customer-focused
Communication	English (intermediate), French (beginner), Portuguese (fluent speaker)

PROJECTS

Solo Software Developer / wdjAppCharenji

May 2025

Tech Stack: Python, Django, JavaScript, Docker, PostgreSQL

- Built a Dockerized Django app with PostgreSQL, featuring a dashboard and timeline view to help users track personal goals.

Solo Software Developer / webAppWildOasisHotelWebsite

February 2025 — Mar 2025

Tech Stack: React.js, Vite, Next.js, @tanstack/react-query, Supabase, Tailwind CSS

- Developed a full-stack hotel booking app with React and Supabase, improving reservation speed and UX.

Solo Software Developer / webAppWildOasisHotel

March 2024 — Dec 2024

Tech Stack: React.js, Vite, Supabase, @tanstack/react-query, React Hook Form, React Router DOM, Styled Components

- Built an internal dashboard with React and Supabase simplifying booking management and enhance data views.

Solo Software Developer / webAppWorldWise

October 2023 — January 2024

Tech Stack: React, Vite, SPA, Leaflet, React Leaflet, JSON Server

- Built a dynamic React SPA with Leaflet for interactive city exploration boosting user engagement.

Solo Software Developer / wpfAppTranscribeAudio

March 2022 — May 2022

Tech Stack: C#, Speech SDK, Microsoft Azure Speech Recognition services

- Developed a WPF C# app using Azure Speech SDK to transcribe audio, optimizing transcription for users.

TECHNICAL EXPERIENCE

AI Machine Learning Data Annotator (On Call/Remote)

September 2024 — Present

Outlier

Toronto, ON

- Built and optimized scalable training code, improving AI model precision by 12% increasing efficiency.
- Diagnosed API and input failures affecting model outputs, reducing response errors and improving reliability.
- Enhanced contextual reasoning in ML algorithms through iterative tuning, improving response relevance.
- Collaborated using Python to assess and correct model outputs, improving result accuracy and QA.
- Implemented prompt engineering techniques optimizing model responses, reducing task completion time by 30%.

Solo Software Developer

January 2022 — Present

Freelancer

Toronto, ON

- Improved reservation flow and UX, showcasing booking confirmation speed improvements by ~28%.
- Streamlined booking management tasks and enhanced data visibility through interactive dashboards.
- Boosted user engagement by enabling intuitive map interaction and persistent city data saving.
- Enhanced audio transcription efficiency for users, reducing manual work by ~38%.

Career Break / Pursued academic and immigration goals

March 2020 — November 2021

Accomplishments

Aracaju, Brazil

- Achieved college-level English proficiency while awaiting a Canadian study permit during the COVID-19 pandemic.
- Used visa delay period to upskill through self-study reinforcing adaptability and long-term career focus.
- Joined virtual meetings and remote projects during travel limits, improving teamwork for global remote work.
- Strengthened technical and soft skills, demonstrating adaptability, discipline, and commitment to long-term goals.

Career Break / Cultural and language exchange in Canada

January 2020

Accomplishments

Toronto, ON

- Relocated to Canada to invest in English communication skills and adapt to a new cultural integration.
- Completed over 300 hours of English study, participated in immersive language programs.
- Immersed in Canadian culture and tech ecosystem by attending professional events and community meetups.
- Engaged in interprovincial travel to experience Canada's cultural diversity firsthand, developing cultural fluency.

Senior Software Developer

January 2013 — September 2018

3Tecnos - Technology Generating Business

Aracaju, Brazil

- Reduced invoice registration time by 10% through C# code optimization in ERP Supply Chain module.
- Implemented validation routines to ensure inventory accuracy and compliance with municipal regulations.
- Automated inventory audit processes, reducing discrepancies by 94% and enhancing data accuracy.
- Analyzed inventory trends to identify cost-saving opportunities, resulting in an 8% reduction costs .
- Optimized SQL Server stored procedures, reducing inventory report processing time by 5% .

Technical Support Analyst

May 2009 — October 2012

Hexagon (Client: Integrated Center for Public Safety Operations)

São Paulo, Brazil

- Maintained 98.9% system uptime, ensuring uninterrupted support for emergency responders.
- Enabled 25% faster reporting, improving coordination and decision-making during emergencies .
- Boosted system usability and efficiency, supporting over 100 users across departments.
- Reduced query time achieving 30% faster data processing enhancing situational awareness for dispatchers.
- Diagnosed hardware, software, and network issues and installed/configured CAD systems.

Senior Systems Analyst

January 2008 — April 2009

Indra Brazil Solutions & Tech Services LTDA

Aracaju, Brazil

- Delivered 5+ fully functional tools, streamlining workflows for internal departments and reducing manual effort.
- Increased task efficiency by 25%, freeing up officers' time for high-priority responsibilities .
- Expanded accessibility and reduced citizen wait times by 40% across the region.
- Improved app performance and stability, reducing load times by 50% and increasing user satisfaction.

Senior Systems Analyst

January 2003 — January 2008

Impact Labor (Client: Brazilian Federal Police Department)

Aracaju, Brazil

- Ensured high system availability and reliability, supporting daily operations for over 100 employees.
- Achieved a 100% successful migration with zero downtime, lowering database licensing expenses.
- Built a PHP-based ERP system that automated daily operations, cutting manual workload by 40%.
- Improved internal workflows and communication, reducing task redundancy and manual data entry

EDUCATION

Certificate of OSLT, Accessing the Technology Job Market in Ontario, Seneca Polytechnic

April 2025 - May 2025

Certificate of Standard English Course/IELTS Preparation , Stafford House International

January 2019 - May 2019

Post Graduation Certificate in Information Systems for WEB, Tiradentes University

March 2003 — May 2005

Bachelor in Data Process Technology, Tiradentes University

August 1998 — August 2002
