- A WPF C# application transcribing audio files into text using Microsoft Azure Speech SDK

PROFESSIONAL EXPERIENCE

Outlier, Toronto, ON   Sep 2024 – Present
AI Machine Learning Data Annotator - On Call/Remote
- Build and fine-tuned scalable, high-performance code to train AI models, improving precision and quality
- Analyze the model's responses, identify failures in API calls, input parameters, and response accuracy
- Improve the performance and contextual understanding of machine learning algorithms
- Collaborated on projects involving Python, assessing and correcting model responses

3Tecnos - Technology Generating Business, Aracaju, Brazil   Jan 2013 – Jun 2018
Senior Software Developer
- Enhanced and maintained C# code for a Supply Chain module in a municipal ERP system
- Ensured inventory accuracy and adherence to regulatory compliance standards
- Streamlined inventory audits, reducing discrepancies by 94% and enhancing overall accuracy
- Analyzed inventory trends to identify cost-saving opportunities, resulting in an 8% reduction in procurement costs
- Optimized SQL Server stored procedures for inventory reports, reducing processing time by 5%

Hexagon (Client: Integrated Center for Public Safety Operations), São Paulo, Brazil   May 2009 – Oct 2012
Technical Support Analyst
- Managed a CAD solution, servers, and network, handling incidents for a Public Safety Communications Center
- Provided timely support during emergency incidents by swiftly generating reports through data analysis
- Collaborated with the solution development team to implement new solutions that meet client requirements
- Performed optimized SQL commands to fetch geospatial data through PL/SQL
- Diagnosed hardware, software, and network issues; provided technical support and installed/configured CAD systems

Indra Brazil Solutions & Tech Services LTDA (Client: Secretariat Public Security), Aracaju, Brazil   Jan 2008 – Apr 2009
Senior Systems Analyst

- Responsible for developing WEB applications using ASP, PHP, JavaScript, Ajax
- Worked as an outsourced professional at a Provincial Police Headquarter, automating operational tasks
- Developed a feature allowing to register Police Reports from any Police Service Division
- Optimized IIS web server settings to resolve a complex configuration issue, enhancing performance

Impact Labor, (Client: Brazilian Federal Police Department), Aracaju, Brazil   Jan 2003 – Jan 2008
Senior Systems Analyst

- Managed a SQL Server database and IIS web server hosting ASP backend applications on the Intranet
- Led the successful migration of the SQL Server database to PostgreSQL, ensuring a seamless transition.
- Refactored all ASP backend applications to PHP, leveraging open-source technologies
- Developed a PHP-based ERP web application covering all daily operational and administrative tasks
